X-Tack

The product distributed by the company mentioned above is a white adhesive and sealant which is used in the foodstuffs-related sector for example for the jointing of wall and floor areas in companies which are preparing and processing foodstuffs.

It was examined by us according to the

Methoden zur Untersuchung von Kunststoffen, soweit sie als Bedarfsgegenstände im Sinne des Lebensmittel- und Bedarfsgegenständegesetzes verwendet werden, einschließlich der 62. Mitteilung des BfR zur Untersuchung von Hochpolymeren, Bundesgesundheitsblatt 50, 524 (2007), Stand vom April 2007,

(Methods for testing plastics as far as they are used as consumer goods as defined by the Foodstuffs and Consumer Goods Act, including the 62nd memorandum of the BfR on the examination of high polymers, Bundesgesundheitsblatt 50, 524 (2007), state of April 2007),

for the composition as well as for the release of substances which might endanger health.

The entirely cured adhesive and sealant is in compliance with the rules of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 338/4 of 13.11.2004, modified by app. no. 5.17 of the regulation (EC) No 596/2009 of 18 June 2009, Official Journal of the European Union L 188 of 18 July 2009, article 3, 1. (a) and (b),

as well as of the

Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuches (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 3. Juni 2013 (BGBl. I S. 1426), zuletzt geändert durch Artikel 10 des Gesetzes vom 21. Mai 2021 (BGBl. I S. 1087), §§ 30 und 31,

(Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 3 June 2013 (BGBl. p. 1426), last amendment by article 10 of the law of 21 May 2021 (BGBl. I p. 1087), §§ 30 and 31).

Thus, the white adhesive and sealant **X-Tack** according to the sample material submitted may be used safely in the foodstuffs-related sector for example for the jointing of wall and floor areas in companies which are preparing and processing foodstuffs. Thereby, a coincidental contact of the entirely cured sealant with foodstuffs for a short period of time is safe.

This certificate of compliance represents the latest technical standard and is based on the certificate of compliance no. 34113 U 12 of 30 August 2012 in connection with a completely new examination of the product.

It has a validity of 2 years and consists of 3 pages.
